

## *The Clinical Simulation Diploma Program*

*in collaboration with*

*The National Health Education and  
Training in Simulation program  
(NHET-Sim)  
Australia*

### **Participants**

20 participants per course

### **Classes Location**

Lebanese American University  
Clinical Simulation Center  
Byblos Campus

### **2018 Dates**

February 21  
April 3  
April 26, 27 & 28  
June 7, 8 & 9  
July 12

*Graduates Class of 2016*

*Graduates Class of 2017*

## Description

This innovative program is designed to meet the requirements of a range of health professionals who wish to develop specialist knowledge, skills and understanding of simulation as a modality for teaching and supporting learning and assessment.

Participants will benefit from the use of an interprofessional setting, the state of the art LAU-Clinical Simulation Center with input from expert academic and clinical staff.

## Objectives

Participants who complete the course will be able to:

- Demonstrate knowledge and understanding of the learning theories that underpin simulation learning and teaching.
- Design, implement and evaluate effective simulation-based educational program in a specific health professional context.

## Format

The Diploma is presented as three modules using a blended approach with online and face-to-face learning at the LAU - Clinical Simulation Center:

1. Teaching, learning and simulation in the clinical context
2. Applied simulation in health profession education
3. Use of simulation-based education for assessment

## Credits

- Five credits or 75 hours

## Requirements

- Doctor in Medicine
- Doctor of Pharmacy
- Master of Science in Nursing

English proficiency requirements as per:

<http://admissions.lau.edu.lb/graduate/>

## International Faculty

- **Prof. Debra Nestel, PhD FAcadMed FSSH**  
Professor of Simulation Education in Healthcare, Monash University  
Professor of Surgical Education, Surgery Department, Melbourne University
- **Prof. Guillaume Alinier, PhD**  
Professor of Simulation in Healthcare Education, University of Hertfordshire, Hatfield, UK  
Director of Research, Ambulance Service, Hamad Medical Corporation
- **Jack Boulet, PhD**  
Vice President for Research and Data Resources at FAIMER

## LAU Faculty

- **Vanda Abi Raad, MD, MHPE**  
Director, Clinical Simulation Center  
Assistant Dean for Continuing Medical Education  
Clinical Associate Professor of Anesthesiology
- **Nadia El Asmar, MD**  
Associate Director, Clinical Simulation Center  
Assistant Professor of Medicine  
Director, OSCE and Clinical Skills Program
- **Hanane Barakat, MD, MHM**  
Clinical Assistant Professor of Anesthesiology  
Anesthesia Clerkship Director
